PURELL® ES8 Soap & Sanitizer Touch Free Dispenser Installation and Use Instructions

Please read all instructions carefully before installing and using the dispenser. Do not install in locations where dispensers may be exposed to wet environments such as showers or areas where walls are washed down.

Dispenser Installation

1. Open dispenser by pressing release buttons on side of dispenser and slide the front cover down.

2. Check label inside dispenser before installing.

   ES8 SOAP = soap dispenser
   ES8 SAN = hand sanitizer dispenser

3. Install dispenser with at least 7” free space above counter top to allow routine service.

4. Using the dispenser, pierce the tape on the back plate to mark and drill four holes using 1/4” drill bit. Use the supplied wall anchor and #10 x 1” screws to secure the dispenser in place, being careful not to overtighten. It is recommended to use 4 screws. If only two are possible, the top two holes should be used. Recommended holes shown.

If installing with tape

5. Clean installation surface with an alcohol pad. Allow surface to dry for 60 seconds then peel paper off installation tape and press firmly on back plate for 10 seconds. For maximum adhesion, wait 24 hours before loading refill or using dispenser.

6. Attach the back plate by pressing on the top two corners and the bottom middle section. Audible clicks will confirm proper installation.

7. Install the SHIELD™ Floor and Wall Protector into the bottom of the dispenser by aligning plastic tabs on the SHIELD with slots on the dispenser and lifting up until the tabs snap into place. (SHIELD is included with Sanitizer Systems and can be ordered for Soap systems)

8. Match label on refill with label on dispenser.

9. Remove refill cap and push the new refill into dispenser until it clicks in place.

10. Close dispenser cover, the green status light will blink after closing, indicating the dispenser is ready to use.

11. Place palm approximately 2” below dispenser, product will dispense within 1 second of sensor activation.
### Refill Replenishment

1. Open dispenser by pressing release buttons on side of dispenser and slide the front cover down.

2. Push **green** release button and remove empty refill.

3. Match label on refill with label on dispenser.

4. Remove refill cap and push the new refill into dispenser until it clicks in place.

5. Close dispenser cover. The green Status light will blink after closing, indicating the dispenser is ready to use.

6. Place palm approximately 2” below dispenser, product will dispense within 1 second of sensor activation.

### Disposal/Recycling

1. Pull the tab to release the collar from bottle.

2. Separate the energy source (non-rechargeable lithium metal/coin cell battery) from the collar and dispose in accordance with federal, state and local regulations.

3. Separate the refill pump from the recyclable PET Bottle. Dispose/Recycle the PET bottle.
Locking the dispenser with LOCK OR NOT™ Technology

1. **LOCK OR NOT™ Technology key**
   - Optional accessory

2. Check for a successful lock by pressing the release buttons on side of dispenser to see if the front cover releases and slides down. Once locked, the dispenser will remain in the locked state.

3. **Dispenser is locked**
   - Locked position visual shown as reference, back plate does not need to be removed to lock dispenser.

---

Disabling the Locking Mechanism

1. **Open a locked dispenser**
   - Insert the key into the keyhole on the top of the dispenser to release the front cover.

2. **Remove the back plate**
   - Lift the back plate in an upward and away motion.

3. **Dispenser is unlocked**
   - Restore to the unlocked position by pushing the locking mechanism toward the top of the dispenser.

4. **Attach the back plate**
   - Pressing on the top two corners and the bottom middle section.

---

TRUE FIT™ Wall Plate and MESSENGER™ Dispenser Station Installation

The TRUE FIT & MESSENGER Station are optional accessories that can be utilized with the dispensing systems.

Use the TRUE FIT Wall Plate to cover any wall damage from removing old dispensers.

The MESSENGER Station lets you add a sign to promote good hand hygiene.

Order this wall plate if you aren’t using a MESSENGER Station.

**The MESSENGER Station includes a Wall Plate.**

**TRUE FIT Wall Plate - Graphite**: 7740-GPH-18

**TRUE FIT Wall Plate + MESSENGER Dispenser Station - Graphite**: 7741-GPH-18

**TRUE FIT Wall Plate - White**: 7740-WHT-18

**TRUE FIT Wall Plate + MESSENGER Dispenser Station - White**: 7741-WHT-18
Dispenser Status LED
Green Flash - every 7 seconds = good
Red Pulse + no dispense + charge level low
Red flash - every 7 seconds = out of service
   • Wrong refill
   • Unrecoverable clog
Red/Green alternating flashes = system fault (replace)

Warnings
Use dispenser only as directed.
Do not use in areas where dispenser may be exposed to wet environments such as showers or outdoors.
Do not install or use in extreme hot or cold locations.
Dispensed product intended for external use only. Refer to refill for actions in case of ingestion.

Cleaning and Maintenance
Clean exterior surfaces of the dispenser using warm water and mild soap.
DO NOT USE ABRASIVE CLEANERS.
Dry with a soft cloth.
